

**In this lesson you will find the guidelines for the proper pronunciation of the pre-exilic language, pure and uninfluenced which is before the Advent of the religion of Judaism by the influx of the gentile converts from Babylon then later Edom Rome Grease and the greater European continent.**

**throughout the ages since our fleeing into Africa during the Babylonian wars those that replaced us in the land of Yisrael had varieties of pronunciations of the language such as the ת which in modern Hebrew is pronounced simply as 't' instead of 'th'. the Germanic ashkenazim pronounce this letter as 's'**

**but as stated earlier this course will solely focus on returning the original language as spoken by the Most high to Moshe at the time of the giving of the Torah.**
