

The short o isn't common. The mark  Qamatz Gadol is normally expressed as a long a sound. As we have covered in section 1.5 In instances such as  and its shortened form 

The understanding of the longer form helps us to read  correctly.

We will cover other words in which the Qamatz takes an o sound and hints to them as the course continues.

The mark  khataf Qamatz represents a very short sound similar to the first o in collection.
